

Shennika

A girl that rivals Beep*... What will UB Boy do.

Will they leave together?

Fren puts all her love and attention in UB Boy now and she truly loves to see her friend with a nice woman. Damn, Shennika is one beautiful girl and her loving eyes pierce deep in UB's soul. UB brings Shennika to the train. Will they leave together?

Shennika

1. **Shennika Girl**
2. **I'll bring you to the train**

Shennika Girl

For 2 Seconds and way more
A beam of sweetness
Radiates in my heart
And not just once
But again and again
And again and again

Shennika, you're one beautiful girl
Damn, you rival Beep*...
Your loving eyes pierce deep in my Soul
Give in is all I will do

Take time I will
And slow this time
I'll scan your outlines
Who are you Shennika Girl?

Tell me UB Boy
I'll listen to you
The canal is no Amazon
But it will do to stroll alongside

And in the mirroring water
UB Boy sees himself with a girl
A girl that responds
When he moves, she moves

And she follows him to places
Dark places with no friends
Just by giving her a look
And she covers his ass
Shennika is one loyal Girl

Where will I bring you to Shennika Girl?

I'll bring you to the train

**We walk along the tracks
Tracks that cut to the left
Tracks that branch off to the right
Make that the other tracks go ahead?**

**And we didn't reach a station yet
Are we fellow wanderers now
And next, train passengers?
Arm in arm in wonderful company**

**Quite an infrastructure, not immense
But too big to oversee
Following its paths is what I do
Is what I didn't do back in the Punk days**

**Shennika is beautiful
How come I meet such faces
Attraction or Distraction?
Is it a good sign, what do I feel?**

**Is this my station UB Boy?
Will we meet again?
You know we won't Girl
Yes sure.. (she matches overwhelmed). A girl that follows. Loyal..**

**I walk on alone along the tracks
Tracks to a left horizon, not yet laid
Tracks to a right horizon
Directing to a Cosmic Realm**

**Am I too impatient?
Can't I wait for a common commuter train?
Did I bring you to some station too early?
Attraction and Distraction without Equilibrium
I'm sorry to bring you to the train Shennika**

**Damn
I really am**
